Executive Director: Dr Arturo Izurieta Valery

Board of Directors:

President: Dennis Geist, Ph.D.

Vice-President: Hans van Poelvoorde

Treasurer: Paula Brock

Government of Ecuador: represented by Minister President,
Galapagos Government Council, Eliécer Cruz, M.Sc.

The Charles Darwin Foundation for the Galapagos Islands (CDF) was created in 1959 under the auspices of the Government of Ecuador, UNESCO and the International Union for Conservation of Nature (IUCN). It operates the Charles Darwin Research Station in Puerto Ayora, Santa Cruz Island, Galapagos. The Charles Darwin Foundation is an "*Association internationale sans but lucrative*" (international non-profit organisation) registered in Belgium under number 371359 and subject to Belgian law. The address in Belgium is Rue Dupré 15, 1090 Brussels.

PLEASE SUPPORT THE VITAL WORK OF CDF

CDF carries out research that is essential to meet the conservation challenges created by the changing social and environmental landscape of Galapagos. This research provides a deeper understanding of the natural and human history of the islands, to guide the management of this precious archipelago. Our success depends on the generosity of individuals and organisations and it is this trust and commitment that enable our legacy to endure. On our website you can find several ways that you can help Galapagos today from anywhere in the world, in any currency: visit <http://www.darwinfoundation.org/en/get-involved/donate/>. For information on current projects and funding needs, see <http://www.darwinfoundation.org>, or contact us at cdrs@fcdarwin.org.ec. Visit our social networks to follow our work, on Facebook www.facebook.com/darwinfoundation, Twitter www.twitter.com/darwinfound, Instagram [instagram/darwinfound](https://www.instagram.com/darwinfound), YouTube [cdfdarwinfoundation](https://www.youtube.com/cdfdarwinfoundation) and LinkedIn.

We express our grateful appreciation to all our supporters whose generosity makes it possible to achieve so much for the conservation of Galapagos.
